

SERVICE - SUPPORT - RESPONSE

Energy Aerospace Corporation (EAC) is acknowledged by Kearsley Airways Limited to promote their range of services and capabilities within the Middle East Region and the Continent of Africa.

- EAC specialises in providing regional based maintenance management support for the accessories and components of the Lockheed Martin C130 and L100 Hercules aircraft.
• EAC provides access to extensive and experienced MRO services backed by expert knowledge of the Hercules aircraft.
• EAC will arrange the support of all your accessory and rotatable requirements.
• Drawing from substantial spare part inventory EAC will provide prompt economic management of all your replacement part requirements.

Energy Aerospace has formed a relationship with Kearsley Airways Limited to provide focused and dedicated management of your aircraft accessory and component assets throughout the maintenance cycle. Our primary aims are to ensure you receive the optimum service, support and response demanded by your operation bringing unprecedented levels of Customer Interface Management to the MRO environment.

*By combining Kearsley Airways extensive capabilities and experience with the dedicated; regional based Customer relationship management provided by **Energy Aerospace** we will ensure that you benefit from the highest possible standards of service and support.*

As one of the leading companies in the aerospace component repair sector for over 50 years, Kearsley Airways are continually investing in new technology, plant and equipment to ensure that they maintain and enhance their well established reputation.

Kearsley Airways has a proven ability to adapt to the many disciplines involved in providing a total in-house capability from receiving components to their completion.

Kearsley's well equipped 45,000 square foot engineering facility based at London Stansted Airport, provide excellent access to motorway, rail and air transportation systems, enabling Kearsley to provide prompt despatch of components and services world-wide.

The constant demand by operators to reduce inventory places greater emphasis on faster component repair turnaround times. Kearsley achieves market leading performance and customer satisfaction for rapid turn around time through maintaining a large spares inventory to support customer requirements.

*The relationship **between Kearsley Airways and Energy Aerospace** brings together a skilful team totally dedicated to providing you with exceptional standards of equipment maintenance and support.*
